VVF-3-208-50, 50 GPD SYSTEM

VVF-4, 100 GPM SYSTEM

85 GPM BOOSTER PUMP SYSTEMS (MODEL PTTB)

85 gpm booster pump systems are available for a lower cost, simplified system to provide constant water volume and pressure.

Features not limited to: 3hp, 3-phase cast iron pump with 85ga pressure tank, brass outlet assembly with pressure gauge and pressure switch, and wall mount pump and control box.

Contact Velocity Water Works or your authorized dealer for more information.

PTTB-3-80-460

APPLICATIONS

These systems were designed to provide a constant water pressure, even with fluctuating water volume demands. Sizes available are 50, 70, 100, and 140 gpd systems.

TURNKEY SYSTEM

Complete with pre-mounted pump, pressure tank and VFD drive/control.

FRAME & ENCLOSURE

Stainless steel frame, for exceptional strength and durability. The metal enclosure includes venting for heat dissipation.

ELECTRICAL

460V, 3-Phase Standard. (208V, 3-Phase is Optional)

PUMP/MOTOR

Heavy duty, cast iron centrifugal pump utilizes high end (TEFC) Totally Enclosed Fan Cooled Motor.

PUMP INLET & OUTLET

Pump inlet includes a check valve, while the outlet assembly has a union for pump access, a pressure relief valve, a pressure gauge, pressure transducer and a ball valve for service.

OPTIONS

Customizable systems are available. Please contact Velocity Water Works or your authorized dealer.
