VROS SERIES RO SYSTEMS

Free Standing, small footprint RO Systems available in 1,800 - 7,200gpd. Includes state of the art VROC RO Controller. Available in 1-Phase and 3-Phase

VROC RO CONTROLLER

Digital display of product TDS, system status and hours of operation. State of the art technology provides piece of mind to operator.

VROSC SERIES RO SYSTEMS

Same small footprint RO System (16" x 18" x 69"), except with CHIP RO Controller. Chip Control provides all RO System functions. Available in 1-Phase only.

CHIP RO CONTROLLER

Provides LED Light indicators of system status (no digital display). Provides all other functions of VROC Control including auto flush, low pressure fault/auto re-start and pre-treat.

VROS & VROSC FEATURES

STAINLESS STEEL FRAME

Small Footprint frame that allows for (1) RO Delivery pump to be mounted to Frame.

MEMBRANES & HOUSINGS

Corrosion Resistant, Stainless Steel Membrane Housings and High Quality (NSF & WQA Certified) RO Membranes.

FUNCTIONAL DESIGN

Standard functions include auto membrane flush, low pressure safety shut-off/auto re-start, pre-treat lock-out and tank full/production (float switch assembly included)

PANEL MOUNTED

Pressure Gauges (3), Flow Meters (2), RO Controller & Reject Valve for easy visibility and accessibility.

SEDIMENT FILTER

Easy accessible 5-Micron Sediment Filter to help keep system functioning at optimal levels. One additional filter included.

CARBON FILTER

Every VROS/VROSC RO System includes Auto backwashing Carbon Filter. Carbon Filter includes In/Out Valves with By-Pass Assembly for reduced installation time and cost.
